

# Protection Concept COVID-19

#together

With this protection concept, we are doing our part to further contain COVID-19.

It is very important to us that these measures are adhered to by all participants.

**Anyone who fails to comply with these guidelines can be expelled from the course.  
(no course fees will be refunded)**

Zurich, Oktober 2020

### Basic Principles

- We comply with the hygiene rules of the BAG at all times
- It goes without saying that when we experience COVID-19 symptoms such as cough, fever and headache, we stay at home
- We also do not participate in classes if we previously had contact with people who have symptoms or have even tested positive
- If the trainer has COVID-19 symptoms, the course will be switched to "online video conference" (zoom) at short notice
- If the situation gets worse - or the BAG again prohibits live-lessons, the courses will continue online (zoom).

### Group Courses

- Now in winter we often train indoor, therefore and also because of the small group sizes, only 1 person per dog can participate
- We ALL wear a certified protective mask indoor and outdoor (also already at the meeting point)
- Before, during and after the lesson, we all keep at least 2m distance to each other (no shaking hands etc.)
- We do not let the dogs to each other - a good exercise for everyday life
- We wait at the meeting point with 6m or more distance to each other, so that the dogs can wait relaxed without a "hello" to each other and e.g. sniff around
- We do not touch the dogs of other participants
- We do not exchange training material (see packing list)
- If the trainer has to "take over" a customer's dog, she does so with her own leash and treat bag/food

### Private Lessons / Behavioural Therapy

When making an appointment, you can choose between "online meeting" and "meeting at TrainingsWerkstatt" in the booking tool

- We wear a certified protective mask (indoor and outdoor)
- We keep a distance of at least 2 meters between each other, in dialogue as well as in practical training
- We do not exchange training material (see packing list)
- Home visits are only made in absolute emergencies under certain conditions

### Meeting points

- **For group courses:** ALWAYS at the crossing "Langensteinstrasse/Strickhofstrasse" right next to the park entrance (see amicanis.ch "Locations" TrainingsWerkstatt / Irchelpark). Please be there 5 minutes in advance.
- **For 1:1s on site:** In front of the entrance of the training workshop
- **Social Walks:** Meeting point will be announced 2 days in advance by mail

### Training Outdoor

- If by-passers, cyclists etc. come towards us, we stand to one side, so that they can pass us at a distance of at least 2m

### Training in the Workshop

- We enter one after the other, with a distance of 6m, into the TrainingsWerkstatt  
Second Team only enters after first team has taken their place, and so on. Same when leaving
- Before entering, we disinfect our hands thoroughly - according to BAG instructions (disinfectant available)
- Also indoors we keep at least 2m distance to each other
- Door handles are disinfected by the trainer several times a day
- The windows are tilted during the lesson. Between the lessons the trainer airs the room generously
- Toilet and washbasin are disinfected by the trainer accordingly. Soap & disposable towels are available. Nevertheless, we kindly ask our clients to refrain from using our sanitary facilities if possible.

**We do not exchange training material.** Therefore, it is part of our protection concept that our participants come to the lesson fully equipped. **We ask you to always have everything with you - even if we will not need everything in every lesson.** Only with this manner can it be guaranteed to carry out a course efficiently. Thank you very much for your help!

We recommend that you carry the dog training material in a **backpack** so that you have both hands free for the training.

- Disinfectants**
- Certified protective mask**
- Towel** (for "cleaning" the dog, before entering the workshop)
- Slippers** (optional)
- Ballpoint pen & paper for notes**
- Dog wears harness/collar and an adjustable double lead (no flexi leash)**
- Normal food & jackpot food** (large quantities, as small pieces as possible, ready at hand in treat bag)
- Popular toy**
- chewing stick, which the dog likes** (not his absolute favourite thing)
- Water & water bowl** (we also need a bowl for certain exercises)
- Schleppeleine / 3 - 5m Leash** (optional: gloves, against burning fingers)
- Break-blanket for the dog** (we need it for practice)
- Clicker** (from Advanced module, available at amicanis for CHF 7.00)
- Robidog bags**

(Under [amicanis.ch/shop](https://www.amicanis.ch/shop) I have a small selection of practical training material (incl. prices) - all specially tested. If you wish, I can bring your desired article to the course (in compliance with the BAG regulations). Please contact me by mail at least 1 day before. Please transfer the amount in advance via eBanking or Twint, with short info to me - Thank you!)
